

# When War Scars the Planet: Environmental Damage Caused by Nuclear and Uranium Weapons

## JANUARY 29<sup>th</sup>, 2026

Location: FZA, Kongressraum U.01

- ☢ War doesn't end when the fighting stops — nuclear and uranium weapons leave lasting scars on people, ecosystems, and entire communities.
- ☢ This event examines their **environmental** and **health** impacts and **the legal pathways to accountability, justice, and abolition**.

### PROGRAM

14:00 – 14:45 A workshop exploring the long-term health, environmental, and social consequences of nuclear weapons testing, with a focus on colonial power relations, responsibility, and justice. (IPPNW Juliane Hauschulz)

14:45 – 15:00 Break

15:00 – 15:45 The session features a screening of Toxic NATO – Srdan Aleksic's Long Way to Justice on the lasting impacts of depleted uranium weapons, followed by exchange on ICBUW's work to support victims and to promote international legal prohibition. (ICBUW Prof. Dr. Manfred Mohr)

15:45 – 16:00 Break

16:00 – 16:30 Discussion (Moderated by Egle Stakeliunaite, MSc. student, University of Bayreuth)

Chair of  
Planetary &  
Public Health

ICBUW  
International Coalition to  
Ban Uranium Weapons
